2021-06 第1套 作文范文

As is vividly shown in the line graph above, the degree of urbanization in China rose steadily and remarkably over nearly four decades. Specifically, the proportion of urban population climbed from a mere 19.39% in 1980 to a striking 60.6% in 2019, tripling within the period, with the growth becoming especially rapid after the year 2000. Behind this rapid urbanization lie China's tremendous achievements. To begin with, decades of sustained economic growth created vast job opportunities in cities, drawing hundreds of millions of rural residents into urban areas. Moreover, forward-looking government policies and large-scale infrastructure construction accelerated the transfer of population and industries from the countryside to towns. Such progress not only reflects the modernization of the nation but also greatly improves people's living standards and promotes balanced regional development. In conclusion, the impressive climb of the urbanization curve mirrors the remarkable strides China has made. If this momentum is sustained wisely, the country will surely embrace an even brighter and more prosperous future.

如上方折线图所生动展示的，1980 至 2019 近四十年间，中国的城镇化率稳步而显著地上升。具体而言，城镇人口所占的比例从 1980 年区区的 19.39% 攀升至 2019 年惊人的 60.6%，在此期间翻了两番，且 2000 年之后增长尤为迅猛。 这种快速城镇化的背后，是中国取得的巨大成就。首先，数十年持续的经济增长在城市创造了大量就业机会，吸引数以亿计的农村居民进入城镇。此外，具有前瞻性的政府政策和大规模的基础设施建设，加快了人口和产业由乡村向城镇的转移。这样的进步不仅体现了国家的现代化，也极大地提高了民众的生活水平、促进了区域协调发展。 总之，城镇化曲线那令人瞩目的攀升，正是中国所取得的非凡成就的写照。倘若这一势头得以明智地延续，国家必将迎来更加光明、更加繁荣的未来。

Hainan is China's second-largest island after Taiwan, as well as the southernmost province of the country. Hainan Island boasts beautiful scenery, a pleasant climate, abundant sunshine, rich biodiversity, numerous hot springs and crystal-clear seawater, and most of its beaches are ideal places for swimming and sunbathing almost all year round. As a result, it is praised as China's garden of all seasons and a holiday resort, attracting large numbers of tourists from home and abroad every year. Since it was established as a province in 1988, Hainan's tourism, service industry and high-tech industry have developed rapidly, making it China's only provincial-level special economic zone. With the strong support of the central government and people across the country, Hainan will be built into the largest free trade pilot zone in China.

The line chart illustrates the changes in the gross enrolment ratio in higher education in China from 1990 to 2019. As is clearly shown, the figure witnessed a steady and remarkable upward trend over these three decades. In 1990, only 3.4% of the eligible population entered higher education. This proportion climbed steadily, passing 11% in 2000 and 30% in 2012, before finally reaching 51.6% in 2019, roughly fifteen times the initial level. Behind these figures lie China's impressive achievements in higher education. First, the dramatic rise reflects the massive expansion of university enrolment, which has opened the door of college to millions of ordinary families. Moreover, the higher enrolment ratio means a far larger pool of skilled talent, supplying the economy with engineers, doctors and researchers. In my view, such progress not only improves individual prospects but also strengthens the nation's competitiveness. In conclusion, the steady climb of the enrolment ratio speaks volumes about how far Chinese higher education has advanced, and I firmly believe this positive momentum will continue in the years ahead.

这张折线图展示了1990年至2019年中国高等教育毛入学率的变化。如图所清晰显示的，在这三十年间该数字呈现出稳步而显著的上升趋势。1990年，只有3.4%的适龄人口进入高等教育。这一比例稳步攀升，2000年越过11%，2012年达到30%，最终在2019年升至51.6%，约为最初水平的十五倍。 这些数字背后是中国在高等教育方面令人瞩目的成就。首先，这一急剧上升反映了高校招生规模的大幅扩张，让千百万普通家庭的孩子得以迈进大学校门。此外，更高的入学率意味着更为庞大的技能人才库，为经济输送工程师、医生和研究人员。在我看来，这样的进步不仅改善了个人前景，也增强了国家的竞争力。总而言之，入学率的稳步攀升有力地说明了中国高等教育已经走得多远，我坚信这一积极势头将在未来持续下去。

2021-06 第3套 作文范文

The chart clearly illustrates the striking decline of rural poverty in China from 2012 to 2020. During this period, the rural poor population plunged from around 98 million to nearly zero, while the incidence of poverty fell in parallel from about 10.2% to almost 0%. Based on official statistics, this downward trend remained remarkably steady throughout the whole period. Several factors account for this remarkable achievement. Above all, the Chinese government made poverty alleviation a national priority and rolled out a series of targeted measures, such as developing local industries, relocating residents from harsh areas and improving education. These well-designed policies steadily lifted millions of people out of poverty. The significance of this progress can hardly be overstated. Not only has it dramatically improved the livelihood of the rural population, but it also offers a valuable model for other developing nations still fighting poverty. In my view, such an accomplishment fully demonstrates what determination and effective governance can bring about.

这张图表清晰地展现了2012年至2020年中国农村贫困的惊人下降。在此期间，农村贫困人口从约9800万骤降至近乎为零，与此同时，贫困发生率也同步从约10.2%降至几乎为0%。基于官方统计数据，这一下降趋势在整个时期内保持得相当平稳。 促成这一非凡成就的因素有多个。首先，中国政府将脱贫列为国家优先事项，并推出了一系列有针对性的举措，例如发展地方产业、将居民从恶劣地区异地搬迁、改善教育等。这些精心设计的政策稳步地让数以百万计的人摆脱了贫困。 这一进步的意义怎么强调都不为过。它不仅极大地改善了农村人口的生活，也为其他仍在与贫困作斗争的发展中国家提供了宝贵的范例。在我看来，这样的成就充分展现了决心与有效治理所能带来的力量。

2021-12 第1套 作文范文

The passage vividly presents a common scene: many teenagers today are obsessed with pop stars, copying how their idols talk and dress and spending heavily just to see them face to face. In my view, this phenomenon deserves a balanced judgement rather than blind praise or total denial. Admittedly, taking an admirable star as one's idol can be positively motivating, since a hard-working singer may inspire young people to pursue their own dreams. However, when admiration turns into blind worship, the harm outweighs the benefit. Chasing stars at great expense drains teenagers' limited money and time, distracts them from their studies, and may even distort their values. To address the issue, joint efforts are needed. Parents and schools should guide adolescents to build a rational view of idols, while the media ought to promote genuine role models instead of empty fame. For teenagers themselves, the key is to learn from a star's strengths without losing themselves. Only in this way can idol worship become a source of growth rather than regret.

这段材料生动地呈现了一个常见场景：如今许多青少年沉迷于流行明星，模仿偶像说话和穿着的方式，甚至一掷千金只为与他们当面相见。在我看来，这一现象值得辩证看待，而非盲目吹捧或全盘否定。 诚然，把一位优秀的明星当作偶像可以带来正向激励，因为一位勤奋的歌手也许会激励年轻人去追逐自己的梦想。然而，一旦欣赏变成盲目崇拜，弊便会大于利。不惜重金追星会耗尽青少年有限的金钱和时间，分散他们的学业精力，甚至可能扭曲他们的价值观。 为解决这一问题，需要多方共同努力。家长和学校应引导青少年树立理性的偶像观，媒体则应多传播真正的榜样而非空洞的名气。对青少年自身而言，关键是学习明星的长处而不迷失自我。唯有如此，偶像崇拜才能成为成长的源泉，而非遗憾。

The site of the First National Congress of the Communist Party of China, located at No. 76 Xingye Road in Shanghai, is a typical Shanghai-style residence built in the autumn of 1920. On July 23, 1921, the First National Congress of the Communist Party of China was held here, where the Party adopted its first program and its first resolution, elected its central leading body, and proclaimed the founding of the Communist Party of China. In September 1952, the site was restored, turned into a memorial hall, and opened to the public. In addition to introducing the delegates who attended the Congress, the memorial hall also presents the course of the Party's historical development. It has now become a base for patriotism education, where people can learn about the Party's history and commemorate revolutionary martyrs.

2021-12 第2套 作文范文

It is not uncommon nowadays that some parents in China are overprotective of their children. They arrange everything, make every decision on their behalf, and forbid any independent exploration for fear of mistakes or injuries. In my view, however well-intentioned this practice may be, it does far more harm than good. To begin with, such excessive protection deprives children of the chance to develop independence. When every choice is made for them, they never learn how to weigh options or solve problems on their own. Moreover, being shielded from all failure leaves them without resilience; a child who has never fallen simply does not know how to stand up again. As a result, these children may grow into adults who are competent in theory yet helpless in real life. To address this issue, parents should first loosen their grip and let children make age-appropriate decisions by themselves. In addition, they ought to treat mistakes as valuable lessons rather than disasters to be avoided at all costs. Ultimately, the wisest parents shift their role from controllers to guides, offering support from behind instead of clearing every obstacle ahead.

如今，中国一些家长对孩子过度保护的现象并不少见。他们替孩子安排好一切，代其做出每一个决定，还因为怕孩子犯错或受伤而禁止任何独立探索。在我看来，这种做法无论初衷多么美好，都是弊大于利的。 首先，这种过度保护剥夺了孩子发展独立能力的机会。当所有选择都由别人替他们做时，他们永远学不会自己权衡利弊、自己解决问题。此外，把孩子隔绝在一切失败之外，会让他们缺乏抗挫力；一个从未跌倒过的孩子，根本不知道该如何重新站起来。结果，这些孩子可能长成理论上很能干、现实生活中却手足无措的成年人。 为解决这一问题，家长首先应当松开双手，让孩子自己去做力所能及的决定。此外，他们应把犯错当作宝贵的一课，而不是不惜一切代价要避开的灾难。归根结底，最明智的家长会把自己的角色从掌控者转为引导者，在孩子身后给予支持，而不是替他们扫清前方的每一个障碍。

2021-12 第2套 翻译参考译文

Located on the border between Hunan and Jiangxi provinces, the Jinggang Mountains are honored as "the cradle of the Chinese revolution" for their glorious revolutionary history. In October 1927, Mao Zedong, Zhu De and other revolutionaries of the older generation led the Chinese Workers' and Peasants' Red Army here, where they waged an arduous struggle, founded the first rural revolutionary base, kindled the spark of the Chinese revolution, and opened up a revolutionary path with Chinese characteristics of "besieging the cities from the countryside and seizing power by armed force." From here, the Chinese revolution marched toward victory. Today the Jinggang Mountains have more than 100 revolutionary sites and have become a "revolutionary history museum without walls," serving as an important base for education in patriotism and revolutionary tradition.

井冈山地处湖南、江西两省交界处,因其辉煌的革命历史被誉为"中国革命红色摇篮"。1927年10月,毛泽东、朱德等老一辈革命家率领中国工农红军来到这里,开展了艰苦卓绝的斗争,创建了第一个农村革命根据地,点燃了中国革命的星星之火,开辟了"农村包围(besiege)城市,武装夺取政权"这一具有中国特色的革命道路,中国革命从这里迈向胜利。井冈山现有100多处革命旧址,成为一个"没有围墙的革命历史博物馆",是爱国主义和革命传统教育的重要基地。

2021-12 第3套 作文范文

It has become a common phenomenon that young people spend a great deal of time online, yet many of them struggle to tell trustworthy information from falsehood. As the passage notes, they are often unable to recognize false information, judge the reliability of online sources, or distinguish real news from fake stories. This deficiency in digital judgment, though easily overlooked, deserves our serious attention. The consequences are far from trivial. Misled by fabricated news, young people may form distorted views of the world, make ill-informed decisions, and even spread rumours unknowingly. Since their critical-thinking skills are still developing, they are especially vulnerable to eye-catching yet groundless claims that circulate rapidly across social media. To address this issue, concerted efforts are needed. First and foremost, schools should offer media-literacy courses that teach students how to verify facts and trace information back to its source. Meanwhile, online platforms ought to strengthen fact-checking and clearly label questionable content. Finally, young people themselves should cultivate the habit of cross-checking a story against several reliable sources before believing or sharing it. Only in this way can they navigate the digital world wisely.

如今出现了一个普遍现象：年轻人花大量时间上网，却有许多人难以把可信的信息与虚假信息区分开来。正如材料所指出的，他们常常无法识别虚假信息、判断网络信息来源的可靠性，也分不清真假新闻。这种数字辨别力的缺失虽易被忽视，却值得我们严肃对待。 其后果绝非微不足道。被伪造的新闻误导，年轻人可能形成扭曲的世界观、做出草率的决定，甚至在不知情中传播谣言。由于他们的批判性思维尚在发育，对那些耸人听闻却毫无依据、在社交媒体上迅速扩散的说法格外缺乏抵抗力。 要应对这一问题，需要多方合力。首先，学校应开设媒介素养课程，教学生如何核查事实、追溯信息来源。与此同时，网络平台应加强事实核查，并对可疑内容作出明确标注。最后，年轻人自己应养成一个习惯：在相信或转发之前，用若干个可靠来源交叉核对同一条消息。唯有如此，他们才能明智地在数字世界中航行。

Located in northern Shaanxi Province on the middle reaches of the Yellow River, Yan'an is the holy land of the Chinese revolution. Mao Zedong and other revolutionaries of the older generation once lived and fought here for thirteen years, led the War of Resistance Against Japanese Aggression and the War of Liberation, fostered the Yan'an Spirit, and made great contributions to the Chinese revolution. Yan'an's revolutionary sites are the largest in number, the most widely distributed and the highest in rank in the whole country. Moreover, it is a national base for education in patriotism, revolutionary traditions and the Yan'an Spirit. Yan'an has nine revolutionary memorial halls, which house a large number of important items left by the CPC Central Committee and older-generation revolutionaries during the Yan'an period, and thus enjoys the reputation of "the City of Museums of the Chinese Revolution".
