2022-06 第1套 作文范文

Nowadays more and more people choose to live an environmentally friendly lifestyle. This shift is no longer a slogan but a set of daily habits that reshape how we eat, travel and consume. Several concrete practices explain this trend. To begin with, many commuters now favour buses, subways or shared bikes over private cars, which cuts carbon emission and eases traffic. What is more, sorting rubbish into recyclable and kitchen waste has become routine in my own neighbourhood, so that plastic and paper can be recycled rather than buried. Take myself as an example: since I started carrying a cloth bag and a reusable bottle, I have thrown away far less single-use plastic every week. Small as these acts seem, they add up to a sustainable way of living. As a result, an environmentally friendly lifestyle benefits both individuals and the planet. It saves resources, keeps the air cleaner and reminds us that a green future depends on the choices we make today. I firmly believe that when everyone takes one small step, the earth will thank us tomorrow.

如今越来越多的人选择过一种环保的生活方式。这一转变不再只是一句口号，而是一套重塑我们如何饮食、出行和消费的日常习惯。 几种具体做法解释了这一趋势。首先，许多通勤者如今更青睐公交、地铁或共享单车而非私家车，这减少了碳排放、缓解了交通拥堵。此外，把垃圾分为可回收物与厨余在我所在的社区已成为惯例，这样塑料和纸张便能被回收而非填埋。以我自己为例：自从我开始随身携带布袋和可重复使用的水杯，我每周扔掉的一次性塑料明显少了许多。这些举动看似微小，累积起来却构成了一种可持续的生活方式。 因此，环保的生活方式既有益于个人，也有益于地球。它节约资源、让空气更洁净，也提醒我们：绿色的未来取决于我们今天的选择。我坚信，当每个人都迈出一小步，地球终将在明天回报我们。

2022-06 第1套 翻译参考译文

Located 15 kilometres southwest of Tian'anmen Square and spanning the Yongding River, Lugou Bridge is the oldest existing multi-arch stone bridge in Beijing. It was first built in 1192 and rebuilt in 1698, and is supported by 281 pillars. On each pillar stands a stone lion, and on the heads, backs, bellies or paws of these stone lions are hidden even more lions. Vivid and lifelike and varying in posture, these stone lions are regarded as the finest works of stone carving on Lugou Bridge. The stone lions on the bridge are too numerous to count, so there is a popular saying in the Beijing area: "The stone lions on Lugou Bridge are simply countless." Lugou Bridge is not only world-famous for its aesthetic features but also widely recognized as a monument in the history of stone bridge construction.

卢沟桥位于天安门广场西南15公里处,横跨永定河,是北京现存最古老的多拱石桥。卢沟桥最初建成于1192年,1698年重建,由281根柱子支撑。每根柱子上都有一头石狮。这些石狮的头、背、腹部或爪子上都藏着更多的狮子。这些石狮生动逼真、千姿百态,是卢沟桥石刻艺术的精品。桥上的石狮不计其数,因而北京地区流传着"卢沟桥上的石狮子--数不清"的说法。 卢沟桥不仅以其美学特征闻名于世,还被公认为石桥建筑史上的一座丰碑。

Nowadays more and more people keep learning new skills to adapt to a fast-changing world. This trend, in my view, is not a passing fashion but a wise and even necessary response to the age we live in. The most obvious reason lies in the speed of technological change. Skills that guaranteed a stable job ten years ago may become outdated overnight, so those who stop learning risk being replaced. Take my cousin as an example. As a traditional accountant, she felt threatened when her company introduced financial software, yet instead of complaining she spent her evenings mastering data analysis. Within a year she was promoted rather than laid off. Her experience convinces me that continuous learning is what keeps a person competitive. Beyond the workplace, learning also enriches our daily life and broadens our horizons. In conclusion, keeping pace with a changing world through lifelong learning is no longer optional but essential. Rather than fearing change, we should treat every new skill as a bridge to a wider future. I firmly believe that whoever embraces new skills today will stand firm tomorrow.

如今，越来越多的人不断学习新技能，以适应这个快速变化的世界。在我看来，这一趋势并非一时的时髦，而是对我们所处时代明智乃至必要的回应。 最明显的原因在于技术变化之快。十年前还能保住一份稳定工作的技能，可能一夜之间就过时了，因此停止学习的人有被取代的风险。以我的表姐为例。作为一名传统会计，当公司引进财务软件时她感到了威胁，但她没有抱怨，而是利用晚上钻研数据分析。不到一年，她不降反升，得到了晋升。她的经历让我确信，持续学习正是让一个人保持竞争力的关键。除了职场之外，学习也丰富着我们的日常生活、开阔着我们的眼界。 总而言之，通过终身学习跟上不断变化的世界，已不再是可有可无的选择，而是必需。与其惧怕变化，不如把每一项新技能都当作通往更广阔未来的桥梁。我坚信，今天拥抱新技能的人，明天必能站稳脚跟。

2022-06 第2套 翻译参考译文

The Nanjing Yangtze River Bridge is the first road-rail bridge over the Yangtze River that was designed by China and built with domestic materials. Its upper deck, a four-lane highway, is 4,589 meters long, while its lower deck, a double-track railway, is 6,772 meters long. The railway bridge connects the two former railway lines, the Tianjin-Pukou line and the Shanghai-Nanjing line, reducing the time for trains to cross the river from one and a half hours in the past to just two minutes now. The bridge is both an important hub for north-south transportation and one of the famous tourist attractions in Nanjing. The completion of the Nanjing Yangtze River Bridge marks a great leap in China's bridge construction. It has greatly facilitated the exchange of goods and the movement of people between the two banks of the Yangtze River, and has played a huge role in promoting economic development and improving people's lives.

南京长江大桥是长江上首座由中国设计、采用国产材料建造的铁路、公路两用桥,上层的4车道公路桥长4589米,下层的双轨道铁路桥长6772米。铁路桥连接原来的天津一浦口和上海－南京两条铁路线,使火车过江从过去一个半小时缩短为现在的2分钟。大桥是南北交通的重要枢纽,也是南京的著名景点之一。 南京长江大桥的建成标志着中国桥梁建设的一个飞跃,大大方便了长江两岸的物资交流和人员来往,对促进经济发展和改善人民生活起到了巨大作用。

2022-06 第3套 作文范文

Nowadays more and more people take delight in offering help to the needy. This heart-warming trend, in my view, reflects both a growing sense of social responsibility and the genuine happiness that giving brings to the giver. There are solid reasons behind this phenomenon. On the one hand, lending a hand to those in difficulty strengthens the bonds that hold a community together, and a single act of kindness often inspires others to follow. On the other hand, helping people is deeply rewarding in itself. I still remember one winter when my classmates and I spent a weekend teaching migrant children in a shabby rented room. We gained far more warmth from their bright smiles than we ever gave, and that experience convinced me that generosity enriches both sides. Therefore, we should never underestimate the power of a helping hand. If each of us is willing to reach out to those in need, our society will surely grow kinder, warmer and more united.

如今，越来越多的人乐于向有需要的人伸出援手。在我看来，这一暖心的趋势既体现了日益增强的社会责任感，也源于给予本身带给施助者的真正快乐。 这一现象背后有充分的理由。一方面，向身处困境的人伸出援手能加强维系社区的纽带，而一次善举往往会激励更多人效仿。另一方面，帮助他人本身就令人深感充实。我仍记得有一个冬天，我和同学们花了一个周末，在一间简陋的出租屋里给农民工子女补课。我们从他们灿烂的笑容中收获的温暖，远比我们付出的要多，那次经历让我确信慷慨是双向受益的。因此，我们绝不应低估一次援手的力量。如果我们每个人都愿意向有需要的人伸出手，我们的社会必将变得更善良、更温暖、更团结。

The Zhaozhou Bridge was built in the Sui Dynasty, around 605 AD, with a length of 50.82 meters, a width of 9.6 meters and a span of 37.37 meters. Li Chun, a talented architect, designed and supervised its construction. The bridge is novel in structure and graceful in shape. It has one large arch, with two smaller arches on each end, which help discharge floodwater, reduce the weight of the bridge and save stone. Since its completion, the bridge has withstood many floods and earthquakes, but its main structure remains intact and it is still in use today. The Zhaozhou Bridge is a pioneering work in the world's history of bridge construction and an outstanding achievement in the history of ancient Chinese civilization. Bridges of similar design did not appear in Europe until the 14th century, more than 700 years later than the Zhaozhou Bridge.

赵州桥建于隋朝,公元605年左右,长50.82米,宽9.6米,跨度37.37米。天才建筑师李春设计并监督了桥的建设。赵州桥结构新颖、造型优美。桥有一个大拱,在大拱的两端有两个小拱,帮助排泄洪水、减轻桥梁重量并节省石材。建成以来,该桥经受了多次洪水和地震,但其主体结构仍然完好无损,至今仍在使用。 赵州桥是世界桥梁建筑史上的一次创举,是中国古代文明史上的一项杰出成就。类似设计的桥梁直到14世纪才在欧洲出现,比赵州桥晚了700多年。

2022-09 第1套 作文范文

Nowadays more and more students are becoming increasingly aware of the importance of developing digital skills. This awareness is well founded, for in an age reshaped by technology, the ability to handle digital tools has become as basic as reading and writing. There are solid reasons behind this trend. For one thing, digital competence directly boosts academic efficiency. In my own case, learning to use spreadsheets and reference software turned a painful week of manual data sorting into an afternoon's work. Moreover, such skills open doors in the job market. For instance, a classmate who taught herself basic programming stood out among hundreds of applicants and landed an internship at a tech firm. As a result, students who master these tools gain a clear edge both in study and in career. In conclusion, the growing attention to digital skills reflects a genuine need rather than a passing fashion. Students would be wise to invest time in mastering practical tools instead of waiting until graduation, so that they can thrive in a world that runs on technology.

如今越来越多的学生日益意识到培养数字技能的重要性。这种意识是有充分依据的，因为在一个被技术重塑的时代，操作数字工具的能力已经像读写一样成为一项基本能力。这一趋势背后有实在的原因。一方面，数字能力直接提升学业效率。就我自己而言，学会使用表格软件和文献管理软件，把原本要手动整理一周的数据变成了一个下午就能完成的工作。此外，这类技能还能打开就业的大门。比如，我的一位同学自学了基础编程，在数百名申请者中脱颖而出，拿到了一家科技公司的实习。因此，掌握这些工具的学生在学习和职业上都获得了明显的优势。 总之，人们对数字技能日益增长的关注反映的是一种真实的需要，而非一时的风尚。学生们明智的做法是趁早投入时间去掌握实用工具，而不是等到毕业，这样他们才能在一个依靠技术运转的世界里立足。

Pasting Spring Festival couplets is an important custom for Chinese people during the Spring Festival. A Spring Festival couplet consists of a pair of poetic lines and a four-character horizontal scroll. Both the lines and the scroll are written in gold or black on red paper, with red symbolizing good luck and gold symbolizing wealth. The couplets are pasted on both sides of the door and above the doorframe. The poetic lines reflect the features of traditional Chinese poetry: the two lines have the same number of characters and are related in content. While the horizontal scroll highlights the theme of the couplet, it also adds the finishing touch. With concise words, Spring Festival couplets depict vivid images and express good wishes. Finally, when every household pastes Spring Festival couplets, people realize that the Spring Festival has officially begun.

贴春联（Spring Festival couplets）是中国人欢度春节的一个重要习俗。春联由一对诗句和四字横批（horizontal scroll）组成,诗句和横批用金色或黑色写在红纸上,红色代表幸运，金色代表财富。春联贴在大门左右两侧和门框上方。春联的诗句体现中国传统诗词的特点，两句诗的字数相同、内容相关。横批凸显春联的主题,更是锦上添花。春联以简洁的文字描绘生动的形象,抒发美好的愿望。当家家户户贴春联时,人们就会意识到春节已经正式拉开序幕。

2022-09 第2套 作文范文

Today more and more people begin to realize the pleasures and joys of real-world social interaction. After years of staring at glowing screens, many of us have discovered that a warm handshake, a shared laugh or a face-to-face chat brings a satisfaction that no online message can replace. My own experience convinces me of this. Last summer I put down my phone and joined a hiking club in my hometown. Instead of typing emojis, I talked, sweated and cooked with real people on the trail. When a stranger offered me water on a steep slope, I felt a genuine bond that no number of online 'likes' had ever given me. Those weekends left me happier and more energetic than a whole year of scrolling ever did. Therefore, real-world social interaction feeds a need that technology alone cannot satisfy. It reminds us that we are living beings who thrive on presence, eye contact and shared moments. Let us step out of the virtual world more often and reconnect with the people around us, for it is there that true joy quietly grows.

如今越来越多的人开始体会到现实世界面对面社交的乐趣与快乐。在长年盯着发光屏幕之后，我们许多人发现，一次热情的握手、一阵共同的欢笑或一场面对面的交谈，所带来的满足是任何线上信息都无法替代的。 我自己的经历让我对此深信不疑。去年夏天，我放下手机，加入了家乡的一个徒步俱乐部。我不再敲打表情包，而是在山路上与真实的人交谈、流汗、一起做饭。当一个陌生人在陡坡上递给我水时，我感到一种真诚的联结，那是再多的线上'点赞'都不曾给过我的。那些周末让我比刷了一整年手机还要快乐、有活力。 因此，现实世界的社交满足了技术本身无法满足的需求。它提醒我们，人本是依靠在场、眼神交流与共同时刻而生活的生命。让我们更常走出虚拟世界，与身边的人重新连接吧，因为真正的快乐正是在那里悄悄生长。

Since ancient times, the seal has been a proof of identity and a symbol of power in China. The seal is not only practical but also an art form, an ancient art that combines calligraphy and carving, and it is often regarded as an independent artwork on a par with painting and calligraphy. From the choice of materials and the craftsmanship of making to the design of scripts, the seal displays extremely rich aesthetic value. While artists from other countries usually sign their names on their paintings, Chinese artists tend to stamp their seals on their works of painting and calligraphy instead of signing. In this way, the seal becomes part of the work and a way of expressing the uniqueness of the work.

自古以来,印章在中国就是身份的凭证和权力的象征。印章不仅具有实用性,而且也是一种艺术形式,是一门集书法与雕刻于一体的古老艺术,经常被看作与书画并列的独立艺术品。印章从材料的选择、制作的工艺到字体的设计,都具有极其丰富的美学表现。其他国家的艺术家通常在其绘画作品上签名,而中国艺术家则往往在其书画作品上盖上印章代替签名。这样,印章也就成为作品的组成部分,是体现作品独特性的一种方式。

2022-09 第3套 作文范文

It is now widely accepted that mutual trust and openness is the key to promoting cooperation. When people or organizations are willing to share information honestly and believe in each other's good intentions, they can join hands far more effectively than those who hold everything back. The reason is simple: trust removes the fear that keeps partners guarding themselves, while openness lets them pool their strengths toward a common goal. A telling example is my own experience in a group research project last term. At first, two members kept their data private, worried that others might take the credit, and our progress almost stalled. Once we agreed to be transparent and openly admitted our doubts, ideas flowed freely, tasks were divided fairly, and we finished ahead of schedule. The same logic explains why companies that communicate frankly with their partners tend to build lasting alliances rather than short-lived deals. In short, without trust and openness, cooperation is built on sand. Only when we dare to be honest and give others our confidence can genuine collaboration take root and bear fruit.

如今人们普遍认为，相互信任与开放是促进合作的关键。当人们或组织愿意坦诚地共享信息、相信彼此心怀善意时，他们携手共事的效率，会远远高于那些把一切都藏着掖着的人。 道理很简单：信任消除了让伙伴彼此设防的顾虑，而开放让双方得以把各自的长处汇聚到共同目标上。一个很能说明问题的例子来自我上学期一次小组研究项目的亲身经历。起初，两名成员把自己的数据藏着不肯共享，担心别人抢功，我们的进度几乎停滞。一旦我们约定彼此透明、坦率地说出各自的疑虑，想法便自由流动，任务分工公平，我们最终提前完成了任务。同样的逻辑也解释了为什么那些与合作方坦诚沟通的企业，往往能结成长久的联盟，而非昙花一现的交易。 总之，没有信任与开放，合作就像建在沙上。只有当我们敢于坦诚、愿意把信任交给他人时，真正的协作才能扎根、结果。

The CCTV Headquarters is located in the Chaoyang District of Beijing, with a total floor area of about 550,000 square meters. Consisting of two towers, the main building has become a popular attraction in the city because of its unique shape, attracting crowds of visitors every day. Its innovative structure is the result of long-term cooperation between Chinese and foreign architects; it not only reflects environmental awareness but also greatly saves construction materials. The CCTV Headquarters features a special passage running through the building, which shows the public its various studios and the history of CCTV. There, visitors can also enjoy spectacular views of the Forbidden City and other places in Beijing.

2022-12 第1套 作文范文

With the application of information technology in education, college students can now learn in more diverse and efficient ways. Not long ago, learning was confined to a fixed classroom and a single textbook, but technology has broken these limits and reshaped how we acquire knowledge. On the one hand, learning has become far more diverse. Through massive open online courses, a student in a small town can now attend lectures delivered by professors at top universities, which was once unthinkable, and digital libraries offer millions of books and papers at the click of a button. On the other hand, learning is remarkably efficient. Thanks to AI-powered tutors, questions that once took days to solve can be answered in seconds, and search engines help us locate exactly the material we need. As a result, we save time and study with greater focus. In conclusion, information technology has enriched both the variety and the speed of learning. Yet we should use these tools wisely, treating them as aids to independent thinking rather than substitutes for it.

随着信息技术在教育中的应用，大学生如今能以更加多样、更加高效的方式学习。不久之前，学习还被局限于一间固定的教室和一本教材，但技术打破了这些限制，重塑了我们获取知识的方式。 一方面，学习变得远为多样。借助大规模开放在线课程，一个小城里的学生如今也能听到顶尖大学教授的授课，这在过去是难以想象的；数字图书馆更是一键之间提供海量书籍与论文。另一方面，学习也变得极为高效。得益于人工智能辅导，过去要花几天才能解决的问题如今几秒钟就能得到解答，搜索引擎帮助我们精准地找到所需材料。结果是，我们节省了时间，也能更专注地学习。 总之，信息技术既丰富了学习的多样性，也提升了学习的效率。但我们应当明智地使用这些工具，把它们当作独立思考的帮手，而不是替代品。

Located in the southwest of China, the Qinghai-Tibet Plateau, with an area of about 2.3 million square kilometers and an average altitude of over 4,000 meters, is known as "the Roof of the World". It is rich in natural resources, boasts beautiful scenery, and is home to various rare wild animals. Due to its low temperatures, the plateau has formed large areas of alpine glaciers. It is the source of many famous rivers in Asia and a major freshwater supply for China and Southeast Asia. It is vital to the global ecosystem. Due to climate change, the glaciers on the plateau are melting at an accelerating rate. China has been making efforts to protect the ecosystem of the plateau, with grassland coverage steadily increasing and many endangered species being more effectively protected.

青藏高原(the Qinghai-Tibet Plateau)位于中国西南部,面积约230万平方公里,平均海拔4000米以上,被称为"世界屋脊"。青藏高原自然资源丰富,风景秀丽,拥有多种珍稀野生动物。 青藏高原气温很低,形成了大面积高山冰川。这里是亚洲许多著名河流的源头,是中国和东南亚的主要淡水供应源。青藏高原对全球生态系统至关重要。 由于气候变化的影响,青藏高原的冰川正在加速融化。中国一直在努力保护青藏高原的生态系统,草地覆盖率不断增加,许多濒危物种得到更为有效的保护。

2022-12 第2套 作文范文

In an era of information explosion, it is vitally important to develop the ability to think critically and make rational choices. Every day we are flooded with news, advertisements and social-media posts, yet not all of them are trustworthy. Only those who can sift truth from falsehood are able to stay clear-headed. There are two compelling reasons why this ability matters. First, information today is a mixture of facts and rumours, and a careless reader can easily be misled. Take online rumours during public emergencies for example: people who forward them without checking often spread panic. Second, the cost of a wrong choice has risen sharply; whether we are selecting a course, a product or a career, rational judgement based on reliable evidence saves us from regret. Therefore, we should never swallow information passively. By questioning the source, comparing different views and weighing the evidence before us, we can turn the endless flood of information into a real advantage rather than a heavy burden. In the end, critical thinking is not an optional skill but a survival tool for the modern mind.

在信息爆炸的时代，培养批判性思维和作出理性选择的能力至关重要。我们每天都被新闻、广告和社交媒体帖子淹没，然而并非所有信息都值得信赖。只有那些能够去伪存真的人，才能保持头脑清醒。 这种能力之所以重要，有两个有力的理由。第一，如今的信息是事实与谣言的混合体，粗心的读者很容易被误导。以突发公共事件中的网络谣言为例：未经核实就转发的人往往会散布恐慌。第二，选择错误的代价急剧上升；无论我们是在选课、选产品还是选职业，基于可靠证据的理性判断都能让我们免于后悔。 因此，我们绝不该被动地全盘接收信息。通过质疑信息来源、比对不同观点、权衡眼前的证据，我们就能把无尽的信息洪流化为真正的优势，而非沉重的负担。归根结底，批判性思维并非可有可无的技能，而是现代人赖以生存的工具。

The Loess Plateau, China's third largest plateau, has an area of about 600,000 square kilometers and an average altitude of 1,000 to 2,000 meters, with most of it covered by loess 50 to 80 meters thick; it is the region with the most concentrated distribution and the greatest thickness of loess in the world. It is a miracle created by nature and is unique in the world. The Loess Plateau is one of the birthplaces of the Chinese nation. As early as 5,500 years ago, people had already begun farming on the Loess Plateau. With the continuous development of farming, its population kept growing, and during the Qin and Han dynasties it became the political and economic center of China. Today, with the implementation of the Western Development Strategy, the economy of the Loess Plateau region has developed rapidly.

2022-12 第3套 作文范文

Today increasing importance is being attached to cultivating college students' team spirit. Both universities and future employers have realized that few achievements today are the work of a single hand, so this quality truly deserves our attention. There are convincing reasons behind this trend. First, almost every modern task, from a laboratory experiment to a business start-up, demands that people with different strengths pool their efforts; without cooperation, even talented individuals can accomplish little. Second, working in a team teaches students to communicate patiently, respect different opinions, and share responsibility, all of which are qualities that textbooks alone can never provide. A student who once relied only on personal effort, for instance, may finally learn to trust others after completing a group project together. For these reasons, team spirit should never be treated as something optional. Colleges ought to design more group tasks, and students themselves should step out of their comfort zones and embrace cooperation, because it is teamwork that turns scattered abilities into real strength.

如今，培养大学生的团队精神正受到越来越多的重视。无论是高校还是未来的雇主都已意识到，当今很少有成就是靠一个人完成的，因此这一素养确实值得我们关注。 这一趋势背后有令人信服的理由。第一，从实验室实验到创业，几乎每一项现代任务都需要拥有不同专长的人合力；没有合作，即使有才华的个人也难有作为。第二，在团队中协作能教会学生耐心沟通、尊重不同意见、分担责任，这些都是仅凭课本永远学不到的素养。举例来说，一个曾经只靠个人努力的学生，在共同完成一次小组项目后，或许终于学会了信任他人。 因此，团队精神绝不该被当成可有可无的东西。高校应当设计更多的小组任务，学生自己也应走出舒适区、拥抱合作，因为正是团队合作把分散的能力汇聚成真正的力量。

Located mostly in Yunnan Province and Guizhou Province, the Yunnan-Guizhou Plateau, with a total area of about 500,000 square kilometers and an average altitude of 2,000 to 4,000 meters, is the fourth largest plateau in China. High in the west and low in the east, the plateau is crisscrossed by numerous rivers, which have carved out many deep and steep canyons. In many parts of these canyons, the soil is fertile, which is highly favorable for the growth of various crops. Such a unique natural environment has given rise to rich biological and cultural diversity. It is a region rich in various types of forest and mineral resources in China, and it is also an important area for the origin of ancient humans. The Yunnan-Guizhou Plateau is home to the largest number of ethnic minorities in China, where each ethnic group has preserved its own rich and colorful cultural traditions.
