2023-03 第1套 作文范文

People are now increasingly aware of the danger of 'appearance anxiety' or being obsessed with one's looks. This uneasiness rarely appears out of nowhere. Bombarded daily by filtered images and narrow aesthetic standards on social media, many young people measure themselves against unreachable models and feel that they never look good enough. The constant comparison quietly drains their confidence and even distracts them from things that truly matter. Yet a healthier attitude is well within our reach. The key is to shift attention from the mirror to inner value - our knowledge, kindness and abilities. I once spent hours worrying about a small scar before a presentation, until a friend reminded me that the audience remembered my ideas, not my face. That moment taught me that self-acceptance, rather than a flawless appearance, is what sets us free. In short, looks are only a thin surface of who we are. Once we learn to value character over appearance, 'appearance anxiety' loses its grip, and we can live with genuine confidence.

如今人们越来越意识到'容貌焦虑'或过度在意自己外表的危害。这种不安很少凭空产生。每天被社交媒体上的滤镜图片和狭隘的审美标准所包围，许多年轻人拿自己与遥不可及的模板相比，觉得自己怎么看都不够好看。这种持续的比较悄悄消耗着他们的自信，甚至让他们分心，忽略了真正重要的事情。然而，一种更健康的心态其实触手可及。关键在于把注意力从镜子转向内在价值--我们的知识、善良与能力。我曾在一次演讲前为一道小疤痕焦虑了好几个小时，直到一位朋友提醒我：观众记住的是我的想法，而不是我的脸。那一刻让我明白，让人自由的是自我接纳，而非完美无瑕的外表。总之，外表只是我们身上薄薄的一层。一旦我们学会看重品格胜过容貌，'容貌焦虑'便失去了它的掌控力，我们也就能带着真正的自信生活。

Xu Xiake was a famous geographer of the Ming Dynasty in China. He spent more than thirty years travelling around most of China. Travelling mainly on foot, he visited many remote and isolated areas. He recorded what he saw and his findings in detail, leaving valuable research materials for later generations. Through field investigations of many rivers, he corrected the errors about water sources in the literature. He also described in detail the influence of factors such as terrain and climate on plants, and vividly depicted the scenic spots, historical sites, and local customs of various places. His travel notes were later compiled by later generations into The Travel Diaries of Xu Xiake, which has exerted a wide influence both at home and abroad.

徐霞客是中国明代的著名地理学家。他花费了三十多年的时间游遍了大半个中国。他主要靠徒步跋涉，寻访了许多荒远偏僻的地区。他把自己的见闻和考察结果详细记录下来,为后人留下了珍贵的考察资料。他通过对许多河流的实地调查,纠正了文献中关于水源的错误。他还详细地描述了地形、气候等因素对植物的影响，生动地描绘了各地的名胜古迹和风土人情。他的考察记录由后人整理成了《徐霞客游记》，在国内外产生了广泛的影响。

2023-03 第2套 作文范文

People are now increasingly aware of the challenges in making a decision when faced with too many choices. Ironically, the abundance of options that was meant to empower us often leaves us hesitant, anxious and exhausted instead. A personal experience makes this clear. Last semester, when I tried to pick an elective, the online system listed over sixty courses. I spent three whole evenings comparing descriptions, reading reviews and switching between tabs, yet I still felt uncertain and finally enrolled at random. The endless comparison drained my energy long before the real learning began, and it left me doubting whether I had chosen wisely at all. The lesson I have drawn is not to fear choices but to tame them. Before browsing, I now fix two or three criteria that truly matter to me and ignore the rest. By narrowing the field in advance, I turn an overwhelming list into a manageable shortlist, and I make decisions faster and with far less regret. When choices multiply, a clear standard, rather than more comparison, is what sets us free.

如今人们越来越意识到，当面对太多选择时，做决定会遇到种种困难。讽刺的是，那些本应赋予我们力量的丰富选项，往往反而让我们犹豫、焦虑、疲惫不堪。 一段亲身经历便能说明这一点。上学期我想选一门选修课，选课系统列出了六十多门课。我花了整整三个晚上比较课程简介、翻看评价、在各个页面间来回切换，可仍然拿不定主意，最后随手选了一门。无休止的比较在真正的学习开始之前就耗尽了我的精力，还让我怀疑自己到底选得对不对。 我得到的教训不是害怕选择，而是要驾驭它。如今在开始挑选之前，我会先定下两三条我真正在意的标准，其余一概不看。通过事先缩小范围，我把一份令人不知所措的长清单变成一份可控的短名单，决定得更快，也少了许多后悔。当选择成倍增加时，让我们获得自由的，是一条清晰的标准，而非更多的比较。

Zheng He was the most outstanding navigator in Chinese history, who demonstrated extraordinary wisdom and outstanding talent in many fields such as navigation, diplomacy and military affairs. He led his huge fleet on seven long voyages, visiting many countries and regions in the western Pacific Ocean and the Indian Ocean, which deepened the mutual understanding between China and both Southeast Asia and East Africa. Zheng He's voyages played a very positive role in promoting economic and cultural exchanges between China and foreign countries, and also made great contributions to maintaining regional peace. To commemorate Zheng He and his great achievements forever, July 11, the day when Zheng He set out on his first voyage, has been designated as China's Maritime Day.

2023-03 第3套 作文范文

People are now increasingly aware of the 'digital gap' or challenges the elderly face in a digital world. As technology reshapes daily life at a dizzying speed, many senior citizens find themselves left behind, struggling to keep pace with tools that younger generations take for granted. This gap manifests itself in countless everyday scenes. For instance, an elderly man may stand helplessly before a restaurant that only accepts mobile payment, unable to scan the QR code. Similarly, when hospitals shift appointment booking online, or when a health code is required to enter public places, those unfamiliar with smartphones are effectively shut out. As a result, tasks that were once simple now become sources of anxiety and isolation. In my view, no one should be excluded by the very technology meant to serve them. Therefore, families ought to patiently teach their parents digital skills, while service providers should retain user-friendly alternatives such as cash counters and manual registration. Only through such joint efforts can we bridge this gap and build a society that is inclusive of every generation.

人们如今越来越意识到‘数字鸿沟’，也就是老年人在数字化世界里所面临的种种挑战。随着技术以惊人的速度重塑日常生活，许多老年人发现自己被落在了后面，难以跟上年轻一代习以为常的各种工具。 这道鸿沟体现在无数日常场景中。比如，一位老人可能无助地站在一家只接受手机支付的餐馆前，却不会扫二维码。同样，当医院把挂号搬到线上，或者当进入公共场所需要出示健康码时，那些不熟悉智能手机的人实际上被挡在了门外。结果，原本简单的事情如今成了焦虑与孤立的来源。 在我看来，没有人应当被本该服务于自己的技术排除在外。因此，家人应当耐心地教父母数字技能，而服务提供方也应保留诸如现金收银台和人工挂号这类便利的替代方式。只有通过这样的共同努力，我们才能弥合这道鸿沟，建成一个包容每一代人的社会。

Zhang Qian was the first great explorer in Chinese history. Braving dangers and overcoming numerous difficulties, he made two journeys to the Western Regions, opened up trade between China, West Asia and Europe, transported Chinese silk and silk fabrics there, and thereby pioneered the famous Silk Road in history. Meanwhile, he introduced the local customs, geography, culture and unique species of the Western Regions to the Central Plains, greatly broadening people's horizons. As historians have pointed out, without Zhang Qian's mission to the Western Regions, there would have been no opening of the Silk Road, nor any cultural exchanges between the Han Dynasty and the Western Regions or Europe.

张骞(Zhang Qian)是中国第一个伟大的探险家。他不畏艰险,克服重重困难,两次出使西域,开通了中国同西亚和欧洲的通商关系,将中国的丝和丝织品运往西亚和欧洲,开拓了历史上著名的"丝绸之路"。同时,他又将西域的风土人情、地理文化以及特有物种等介绍到中原,极大地开阔了人们的视野。 正如历史学家所指出的那样,如果没有张骞出使西域,就不可能有丝绸之路的开辟,也就不会有汉朝同西域或欧洲的文化交流。

2023-06 第1套 作文范文

Today there is a growing awareness that mental well-being needs to be given as much attention as physical health. For too long, we have measured a person's health only by the body, ignoring the mind that quietly suffers behind a healthy-looking face. Yet a troubled mind can be just as disabling as a broken leg, which is why the two deserve equal care. My own experience convinces me of this. During my sophomore year, a close friend kept a perfect exercise routine but slid into deep anxiety before exams. He looked strong, so no one noticed until his grades and sleep collapsed. Only after he sought counseling did he truly recover. His story shows that neglecting the mind can undo all the benefits of a fit body. Therefore, we should treat mental and physical health as two wheels of the same cart. Schools and workplaces ought to offer counseling as readily as gyms, and each of us should learn to talk about our feelings without shame. When the mind is cared for as much as the body, a person can be genuinely, fully healthy.

今天，人们越来越意识到，心理健康需要得到与身体健康同等的关注。长期以来，我们只用身体来衡量一个人是否健康，却忽视了那颗在健康外表之下暗自受苦的心灵。然而，一颗被折磨的心灵和一条断腿一样能使人失能，正因如此，二者理应得到同等的照护。我自己的经历让我确信这一点。大二那年，一位好友保持着近乎完美的锻炼习惯，却在考试前陷入了深深的焦虑。他看上去很强壮，因此在成绩和睡眠双双崩溃之前，没有人察觉。直到他去接受了心理咨询，才真正康复。他的故事说明，忽视心灵会抵消强健体魄带来的一切益处。 因此，我们应当把心理健康与身体健康当作同一辆车的两个轮子来对待。学校和职场应当像提供健身房一样便捷地提供心理咨询，我们每个人也应学会毫无羞耻地谈论自己的情绪。当心灵得到与身体同等的照护时，一个人才能真正地、完整地健康。

2023-06 第2套 作文范文

When faced with differing opinions, we should try to reach agreement through friendly discussion and reasonable argument. In a world where people come from diverse backgrounds, disagreements are inevitable; yet how we handle them reveals our maturity. Rather than shouting others down or stubbornly clinging to our own views, seeking common ground through calm reasoning is always the wiser choice. The reason is simple: friendly discussion invites cooperation, while quarrels only deepen the divide. Take the famous debates in scientific communities. When Darwin proposed his theory of evolution, opponents raised sharp objections, but progress was made not by insults but by patient argument and shared evidence. Similarly, in my own study group, a heated dispute over a project was resolved only after we sat down, listened to one another, and combined our ideas. Mutual respect turned rivals into partners. In conclusion, differing opinions need not lead to conflict. If we approach them with an open mind, sound logic, and genuine respect, we can transform disagreement into understanding and reach a consensus that benefits everyone. This is not only a skill but a mark of a civilized society.

面对不同的意见时，我们应当努力通过友好的讨论和合理的论证来达成一致。在一个人们来自不同背景的世界里，分歧不可避免；然而我们如何处理分歧，恰恰显露出我们的成熟。与其压制他人或固执己见，不如通过冷静的说理去寻求共识，这永远是更明智的选择。 道理很简单：友好的讨论邀来合作，而争吵只会加深隔阂。以科学界那些著名的争论为例。当达尔文提出进化论时，反对者提出了尖锐的质疑，但真正推动进步的不是谩骂，而是耐心的论证与共享的证据。同样，在我自己的学习小组里，一场因项目而起的激烈争执，只有在我们坐下来、互相倾听、把彼此的想法结合起来之后才得以化解。相互尊重把对手变成了伙伴。 总而言之，不同的意见不必导致冲突。如果我们以开放的心态、严谨的逻辑和真诚的尊重去面对它们，就能把分歧转化为理解，达成惠及每个人的共识。这不仅是一种能力，更是一个文明社会的标志。

With the rapid development of China's economy and the steady improvement of people's living standards, urban residents are placing increasingly high demands on the environment and the quality of life. To meet these rising demands, Chinese local governments are attaching greater importance to the construction and improvement of public facilities. By building new squares, parks and public green spaces, or redesigning and renovating existing public areas, many cities have provided their citizens with more places for leisure and social activities. Today, government-funded fitness equipment and newly paved fitness trails can be seen everywhere in many cities, which has not only markedly improved the conditions for residents' outdoor activities but also made the cities more beautiful.

2023-06 第3套 作文范文

It is widely accepted that an important goal of education is to help students learn how to learn. In my view, teaching learners to acquire knowledge on their own matters far more than simply filling their heads with facts, because the ability to learn lasts a lifetime. The reason is that knowledge itself keeps changing, while the skill of learning does not. Consider two students: one memorizes every formula the teacher offers, and the other masters how to find, question and apply new information. When they leave campus and face problems no textbook has covered, the first often feels lost, whereas the second keeps growing. My own experience confirms this. In college I taught myself programming through online courses; what my teachers really gave me was not the code, but the confidence and method to explore an unfamiliar field by myself. For these reasons, education should do more than deliver content. Once students truly learn how to learn, they hold a key that opens every door throughout their lives.

人们普遍认为，教育的一个重要目标是帮助学生学会如何学习。在我看来，教会学习者自主获取知识，远比单纯往他们脑子里填塞事实更重要，因为学习的能力能受用一生。原因在于，知识本身在不断变化，而学习这项技能却不会过时。设想两个学生：一个把老师给的每条公式都背下来，另一个则掌握了如何去查找、质疑并运用新信息。当他们离开校园、面对课本从未讲过的问题时，前者常常无所适从，后者却能不断成长。我自己的经历印证了这一点。大学里我通过网络课程自学编程；老师真正给我的不是代码本身，而是独自探索一个陌生领域的信心与方法。 因此，教育应当做的远不止传递内容。一旦学生真正学会了如何学习，他们便握住了一把能在一生中打开每一扇门的钥匙。

2023-12 第1套 作文范文

As is known to all, gaining a sound knowledge of the basics is of vital importance for students to master an academic subject. Just as a towering building cannot stand firm without a solid foundation, no student can reach academic heights unless the fundamentals are first laid down. The basics are not the trivial part of learning; they are the very ground on which deeper understanding is built. In my own experience, this truth was made vivid when I began studying programming. At first I was eager to write fancy applications and skipped the elementary concepts of variables and loops. As a result, whenever a bug appeared, I had no idea where to look, and my code collapsed completely. It was only after I went back and mastered these basics that I could finally trace errors and write reliable programs. This lesson taught me that shortcuts around the fundamentals lead nowhere. It follows that students should never underestimate the value of the basics. Rather than rushing toward complicated tasks, we ought to devote patient effort to consolidating the fundamentals first. Only by standing on such firm ground can we climb steadily toward true mastery of any subject.

众所周知，扎实掌握基础知识对于学生掌握一门学科至关重要。正如高楼没有坚实的地基就无法屹立，学生若不先打牢基础，也无法登上学术的高峰。基础绝非学习中无关紧要的部分，它正是更深层理解赖以建立的根基。 以我自己的经历为例，当我开始学习编程时，这个道理变得格外真切。起初我急于写出花哨的程序，跳过了变量、循环这些最基本的概念。结果一旦出现程序错误，我便毫无头绪，代码彻底崩溃。直到我回过头去真正掌握了这些基础，我才终于能够排查错误、写出可靠的程序。这段教训告诉我：绕过基础的捷径，最终无路可走。 由此可见，学生绝不应低估基础的价值。与其急着去攻克复杂的任务，我们更应付出耐心去先巩固基础。唯有立足于如此坚实的根基，我们才能稳步攀登，走向对任何学科的真正掌握。

In China, with the arrival of an aging society, elderly care has drawn widespread attention. What people talk about most is what model of elderly care should be adopted. Most people believe that the elderly-care model needs to be diversified. To achieve this, through governmental guidance and social participation, we can build more and better elderly-care institutions, improve community service centers, encourage self-supported home-based elderly care, and promote a combination of family-based and society-based elderly care. With the continuous increase in government and social investment in elderly-care services, elderly-care facilities will be steadily upgraded, service quality will gradually improve, and the elderly will live a more convenient, comfortable, healthy and happy life.

2023-12 第2套 作文范文

Nowadays parents are increasingly aware that allowing kids more freedom to explore and learn on their own helps foster their independence and boost their confidence. This shift in parenting reflects a valuable truth: children grow strongest not when every step is arranged for them, but when they are trusted to try, fail, and try again. To begin with, freedom teaches independence in a way no lecture ever could. A child who is allowed to plan a weekend trip, cook a simple meal, or solve a quarrel with friends gradually learns to rely on his own judgment. Take my younger cousin, for example. When his mother stopped correcting his every homework mistake and let him check the answers himself, his grades slowly improved, and, more importantly, he began tackling new problems without fear. Each small success became a brick building his confidence. In this way, granting children the room to explore freely is not a risk but a wise investment. As a result, they mature into adults who dare to think, decide, and stand on their own feet.

如今父母越来越意识到，给孩子更多自由去探索、自主学习，有助于培养他们的独立性、增强他们的自信。这种教养观的转变背后是一个宝贵的真理：孩子并非在每一步都被安排好时才成长得最好，而是在被信任去尝试、失败、再尝试时才最为强大。 首先，自由教会孩子的独立，是任何说教都无法给予的。一个被允许去规划周末出行、做一顿简单的饭、或自己化解与朋友争执的孩子，会逐渐学会依靠自己的判断。以我的表弟为例。当他妈妈不再逐题纠正他的每一处作业错误、而让他自己核对答案后，他的成绩慢慢提高了，更重要的是，他开始不再害怕去攻克新问题。每一次小小的成功，都成了垒起他自信的一块砖。 就这样，给孩子自由探索的空间，不是一种冒险，而是一项明智的投资。因此，他们会长成敢想、敢决断、能靠自己双脚站稳的大人。

2023-12 第3套 作文范文

With their valuable skills and experience, elderly people can continue to make significant contributions to society. Far from being a burden, seniors possess a lifetime of professional knowledge and practical wisdom that younger generations simply have not had time to acquire. This potential shows itself in countless ways. Take retired engineers and doctors as an example: many of them return to their former posts as consultants, training newcomers and solving problems that puzzle less experienced staff. In my own community, retired teachers volunteer to run free evening classes, while elderly craftsmen pass down traditional skills that would otherwise disappear. Such efforts prove that age brings not decline but a rich resource waiting to be tapped. Therefore, we should stop regarding old age merely as a time of rest and instead recognize its true worth. If society creates more opportunities for the elderly to share their expertise, everyone benefits. Only by valuing and drawing on their skills and experience can we build a wiser and more harmonious community.

凭借宝贵的技能与经验，老年人能够继续为社会做出重要贡献。老年人远非负担，他们拥有一生积累的专业知识与实践智慧，而这些是年轻一代还来不及积累的。 这种潜力体现在方方面面。以退休的工程师和医生为例：他们中许多人以顾问身份重返原岗位，培训新人，解决经验不足的员工搞不定的难题。在我自己的社区里，退休教师志愿开办免费夜校，老手艺人则把原本会失传的传统技艺传承下去。这些付出证明，年龄带来的不是衰退，而是一笔有待挖掘的丰厚资源。 因此，我们应当不再把老年仅仅看作歇息的时光，而要认识到它真正的价值。倘若社会为老年人创造更多分享专长的机会，人人都会从中受益。唯有珍视并善用他们的技能与经验，我们才能建成一个更智慧、更和谐的社群。

In recent years, the elderly population in China has been growing continuously. In response, the Chinese government is taking various measures to promote the development of the elderly care service system, so that the elderly can enjoy a healthy and happy life in their later years. Various elderly care institutions have been built across the country. To improve the service quality of these institutions, the government has issued a series of standards, strengthening the supervision of them. To make dining more convenient for the elderly, many cities have opened community canteens, which provide affordable meals for them. In addition, elderly people with limited mobility can also enjoy home meal delivery services. At the same time, China is also actively exploring other elderly care models, such as home-based and community-based care, to ensure that all the elderly are well cared for in their old age.
