2024-06 第1套 作文范文

There is a growing awareness of the importance of digital literacy and skills in today's world. As study, work and daily life move online, the ability to use digital tools wisely has become a basic survival skill rather than an optional advantage. This importance is easy to feel in real situations. During the pandemic, all my courses were shifted to online platforms, and only classmates who could navigate video meetings, submit assignments and search for reliable sources kept up with the pace. Those who struggled with the technology quickly fell behind, not because they were less clever, but because they lacked the digital skills the new setting demanded. The same gap appears in the job market, where employers now expect graduates to handle data, communicate online and tell trustworthy information from rumours. Therefore, digital literacy is no longer a bonus but a necessity. By actively learning to process information, protect our online safety and keep updating our skills, we can turn technology into a real advantage instead of a barrier.

在当今世界，人们越来越意识到数字素养与技能的重要性。随着学习、工作和日常生活都转向线上，明智地使用数字工具已从一种可选的优势变成了一项基本的生存技能。这种重要性在真实情境里最容易被感受到。疫情期间，我所有的课程都被搬到了线上平台，只有那些会操作视频会议、提交作业、检索可靠资料的同学才跟得上节奏。那些和技术较劲的人很快掉了队--不是因为他们不够聪明，而是因为他们缺少新环境所要求的数字技能。同样的差距也出现在求职市场：如今用人单位默认毕业生能够处理数据、在线沟通、并把可信信息与谣言区分开来。 因此，数字素养不再是加分项，而是一种必需品。只要我们主动学习处理信息、保护自身的网络安全、并不断更新技能，就能把技术变成真正的优势，而不是一道障碍。

China's traditional wedding customs have a long history. A complete set of wedding ceremonies gradually took shape as early as the Zhou Dynasty, some of which have been followed to this day. Today's Chinese wedding customs have changed greatly, but the wedding celebration remains very grand. The wedding venue is elaborately decorated, with red-the color symbolizing jubilance-as the main tone, and many objects wishing the couple happiness are placed around it. At the wedding, the couple bow to Heaven and Earth, to their parents and to each other, then hold a banquet to entertain the guests and propose a toast to thank them. Today, many young people are still fond of traditional Chinese weddings, experiencing the unique and wonderful Chinese-style romance.

中国的传统婚礼习俗历史悠久,从周朝开始就逐渐形成了一套完整的婚礼仪式,有些一直沿用至今。如今的中式婚礼习俗已有很大变化,但婚礼庆典仍然十分隆重。婚礼场地经过精心装饰,以象征喜庆(jubilance)的红色为主色调,摆放着许多祝愿新人幸福的物件。在婚礼上,新人要拜天地(bow to Heaven and Earth)、拜父母和相互对拜,然后设宴招待宾客,并向宾客敬酒致谢。今天,许多年轻人依然钟情于传统的中式婚礼,体验独特而美好的中国式浪漫。

2024-06 第2套 作文范文

Nowadays more and more college students have come to realize social practice and academic learning are equally important. Rather than treating them as rivals competing for limited time, an increasing number of us regard the two as partners that reinforce each other, and I firmly share this view. Academic learning equips us with theories, while social practice tests and deepens them. Knowledge that never leaves the textbook easily fades, yet once applied, it truly takes root. Take my own experience as an example. After studying marketing principles for a whole semester, I joined a campus start-up and helped promote its products online. Only then did the abstract concepts suddenly make sense, and in return the real feedback from customers pushed me back to my books with sharper questions. Learning guided my practice, and practice enriched my learning. Therefore, academic study and social practice are two wheels of the same cart, and neither can be spared. Only by letting them go hand in hand can college students grow into capable talents that society genuinely needs.

如今越来越多的大学生已经意识到，社会实践与学术学习同等重要。与其把两者当成争抢有限时间的对手，越来越多的我们把它们看作互相促进的伙伴，我本人也坚定地认同这一看法。 学术学习为我们装备理论，而社会实践则检验并深化这些理论。从不走出书本的知识很容易被遗忘，可一旦付诸应用，它才真正扎根。以我自己的经历为例。学了整整一学期营销原理后，我加入了一个校园创业项目，帮它在网上推广产品。直到那时，那些抽象的概念才突然变得清晰，而反过来，来自客户的真实反馈又把我推回书本，带着更尖锐的问题。学习指导了我的实践，实践又丰富了我的学习。 因此，学术学习与社会实践是同一辆车的两个轮子，缺一不可。唯有让两者并行不悖，大学生才能成长为社会真正需要的有用之才。

2024-06 第2套 翻译参考译文

China abounds in bamboo and is among the first countries to develop and utilize bamboo resources. Bamboo is widely distributed across China and comes in a rich variety of species. It is also highly practical and is used in many aspects of production and daily life, such as making chopsticks, tables and chairs, and building bridges and houses. The Chinese people love bamboo, and since ancient times countless scholars have created splendid literary and artistic works with bamboo as their theme. The straight stem of bamboo symbolizes an upright character. Moreover, bamboo has strong vitality and adaptability; no matter how harsh the environment is, it can survive tenaciously, thus symbolizing the spirit of perseverance. For thousands of years, bamboo has been regarded as a symbol of the character of the Chinese nation.

中国盛产竹子,是最早开发利用竹资源的国家。竹子在中国分布广泛,品种丰富。竹子实用性强,用于生产和生活的许多方面,如筷子、桌椅的制作和桥梁、房屋的建造。中国人爱竹,自古以来就有无数文人以竹为主题,创作了绚丽多彩的文学和绘画作品。竹子主干(stem) 笔直,象征正直的品格。竹子具有强大的生命力和适应能力,无论环境多么恶劣,都能够顽强生存,因而寓意坚韧不拔的精神。几千年来,竹子一直被视为中华民族品格的象征。

2024-06 第3套 作文范文

Nowadays, cultivating independent learning ability is becoming increasingly crucial for personal development. As knowledge updates at an unprecedented pace, the skills we master at school can no longer carry us through an entire career, which makes the capacity to learn on our own a decisive advantage. To begin with, self-directed learning keeps us competitive. Those who can teach themselves new tools quickly adapt to changing workplaces, while those who wait to be taught inevitably fall behind. Take my own experience: when our university suddenly shifted to online courses, I taught myself data analysis through free tutorials, and that skill later helped me stand out in an internship. Moreover, lifelong learning nurtures independent thinking, enabling us to judge information critically rather than swallow it blindly. In conclusion, independent learning is far more than an academic skill; it is a lifelong engine that drives personal growth. Therefore, we should consciously develop this ability and treat every day as a chance to learn.

如今，培养自主学习能力对个人发展正变得越来越关键。由于知识以前所未有的速度更新，我们在学校掌握的技能已无法支撑整个职业生涯，这使得独立学习的能力成为一种决定性优势。 首先，自主学习让我们保持竞争力。能够自学新工具的人能迅速适应变化的职场，而坐等别人来教的人终将落后。以我自己的经历为例：当学校突然转为线上授课时，我通过免费教程自学了数据分析，这项技能后来帮助我在实习中脱颖而出。此外，终身学习还能培养独立思考，使我们能够批判地判断信息，而不是盲目全盘接受。总之，自主学习远不只是一项学术技能，它是驱动个人成长的终身引擎。因此，我们应当有意识地培养这一能力，把每一天都当作学习的机会。

2024-06 第3套 翻译参考译文

Fans have long been cherished by the Chinese people. Today, however, they are no longer merely tools for keeping cool, but are more often appreciated as works of art. Many fans, with graceful shapes and exquisite workmanship, are decorated with delicate patterns of landscapes, flowers and birds, and figures, and thus carry high artistic value. In addition, many famous Chinese painters and calligraphers like to write poems and paint pictures on fans to display their artistic taste. Fans are also often given to others as gifts to convey good wishes and sincere feelings. Today, although the practical function of fans has greatly weakened, the fan, as a cultural symbol and an art form, still plays an important role in traditional Chinese culture.

扇子自古以来就深受中国人喜爱,但现在已不只是消暑纳凉的工具,而更多地作为艺术品供人欣赏。许多扇子造型优美、做工精良,并绘有山水、花鸟、人物等精美图案,具有很高的艺术价值。中国许多著名画家和书法家喜欢在扇子上作诗绘画,展示其艺术品味。扇子常作为礼物赠予他人,表达美好的祝福和真挚的情感。如今,扇子的实用功能已大为减弱, 但作为一种文化符号和艺术形式,扇子仍然在中国传统文化中扮演着重要角色。

2024-12 第1套 作文范文

To increase the likelihood of success, one should set realistic goals and work persistently towards them. This statement reveals a simple truth: ambition alone means little unless it is anchored to attainable targets and sustained effort. A realistic goal keeps us moving instead of despairing. If a beginner runner vows to finish a marathon next week, failure is almost certain, and disappointment soon kills motivation. However, by aiming first at three kilometres, then five, and finally the full distance, the runner sets goals within reach and steadily raises the bar. Each small victory fuels the next. Yet reasonable goals mean nothing without persistence. My cousin, who dreamed of passing CET-6, did not expect overnight fluency. She fixed a modest daily plan of thirty new words and one reading passage, and she stuck to it for months. As a result, she cleared the exam comfortably. In this way, pairing sensible targets with steady work transforms a distant dream into a series of achievable steps. That is the surest road to success.

为了提高成功的可能性，人应当设定现实的目标，并持续地朝目标努力。这句话揭示了一个简单的道理：仅有雄心并无多大意义，除非把它锚定在够得着的目标和持之以恒的努力之上。 一个现实的目标能让我们不断前进，而不是陷入绝望。如果一个新手跑者发誓下周就跑完马拉松，失败几乎是注定的，随之而来的失落很快会浇灭动力。然而，如果先以三公里为目标，再到五公里，最后是全程，跑者就把目标定在了够得着的范围，并稳步抬高标准。每一次小小的胜利都为下一次积蓄动力。 然而，再合理的目标若没有坚持也毫无意义。我表姐一心想通过六级，她并不指望一夜之间就能流利。她定下一个不大的每日计划--每天三十个新词、一篇阅读，并坚持了数月。结果，她轻松通过了考试。 这样一来，把合理的目标与稳定的努力配对，就能把一个遥远的梦想化作一连串够得着的台阶。这正是通向成功最可靠的道路。

The successful development of the Beidou Navigation Satellite System is a major scientific and technological achievement made by China since the reform and opening-up. Through unremitting efforts, the developers overcame a series of technical problems, and the Beidou system has finally achieved global coverage and high-precision positioning, making China one of the few countries in the world that independently possess a global satellite navigation system. The system has been widely applied in many fields such as transportation, disaster relief, weather forecasting and public safety. Today, it has also been widely recognized internationally and has begun to provide high-quality services for an increasing number of countries and regions.

北斗(Beidou)卫星导航系统的成功研制是中国自改革开放以来取得的一项重大科技成就。研发人员经过不懈努力,攻克了一系列技术难题,北斗系统最终实现了全球覆盖和高精度定位,使中国成为世界上少数几个独立拥有全球卫星导航系统的国家之一。北斗系统已广泛应用于交通运输、灾害救援、天气预报、公共安全等诸多领域。北斗系统现在已经在国际上得到广泛认可,开始为越来越多的国家和地区提供优质服务。

2024-12 第2套 作文范文

Nowadays, more and more students have realized the importance of self-discipline in their personal growth. In an age flooded with short videos and endless distractions, the ability to control oneself has become the very foundation of academic success and character building. A vivid example is my roommate Li Ming. When we entered university, he set himself a firm rule: no phone before finishing the day's study plan. While others drifted from one game to another, his steady self-management allowed him to master a difficult programming course and win a national scholarship. His experience convinced me that talent alone rarely decides how far a person goes; it is perseverance and daily self-control that truly shape our future. Therefore, I firmly believe that cultivating self-discipline deserves our full attention. Rather than blaming the environment for our failures, we should learn to say no to temptations and stick to our own plans. Only by mastering ourselves can we grow into the people we truly wish to become.

如今，越来越多的学生认识到自律在个人成长中的重要性。在一个充斥着短视频和无尽干扰的时代，管住自己的能力已经成为学业成功和品格养成的根基。 一个鲜活的例子是我的室友李明。刚上大学时，他给自己定下一条铁律：当天的学习计划没完成，绝不碰手机。当别人从一个游戏刷到另一个游戏时，他稳定的自我管理让他攻克了一门很难的编程课，并拿到了国家奖学金。他的经历让我确信：单凭天赋很少能决定一个人能走多远；真正塑造我们未来的，是毅力与日复一日的自我约束。 因此，我坚信培养自律值得我们全力以赴。与其把失败归咎于环境，不如学会对诱惑说不、坚持自己的计划。唯有掌控自己，我们才能成长为自己真正想成为的人。

Yangshan Port is an important part of the Shanghai shipping center, China's first deep-water port, and one of the largest deep-water ports in the world. After nearly two decades of development, it has achieved a high level of automation. The use of digital technology and artificial intelligence has greatly reduced labor costs and carbon emissions. The self-developed terminal management system can remotely control large equipment from hundreds of kilometers away. The port looks busy, but no manual operation can be seen on site, and it can operate around the clock without interruption. Yangshan Port will continue to develop and make greater contributions to building Shanghai into a global shipping center.

2024-12 第3套 作文范文

College provides a great opportunity for students to explore various possibilities and find the right path for themselves. Unlike the rigid routine of high school, the campus offers a wide range of courses, clubs and internships that allow us to test different interests and gradually discover where our true passion lies. Take my own case as an example. When I entered university, I was convinced that I would become an accountant, simply because my parents thought it was stable. However, after joining a campus debate club and taking an elective in journalism, I realized how much I enjoyed writing and public speaking. That single semester of trying new things completely reshaped my plan, and I eventually switched my major to communication. In my view, such freedom to experiment is exactly what makes college so valuable. Instead of clinging to a fixed idea, students should seize every chance to explore, because it is only through trial and error that we can truly find the path that suits us best.

大学为学生提供了探索各种可能、找到适合自己道路的绝佳机会。不同于高中死板的作息，校园提供了丰富的课程、社团和实习，让我们得以尝试不同的兴趣，逐渐发现自己真正的热爱所在。 以我自己为例。刚上大学时，我坚信自己会成为一名会计，只因为父母觉得这份工作稳定。然而，在加入校辩论社、选修了一门新闻课之后，我意识到自己是多么热爱写作和公开演讲。那一个学期的种种尝试彻底重塑了我的规划，我最终转到了传播学专业。 在我看来，这种自由试验的空间，正是大学如此宝贵的原因。与其死守一个固定的想法，学生更应抓住每一次探索的机会，因为唯有经历试错，我们才能真正找到最适合自己的那条路。

2024-12 第3套 翻译参考译文

Exploring space has always been a dream of the Chinese nation. In 2003, Shenzhou-5 was successfully launched, and Yang Liwei became the first Chinese astronaut to fly into space. In 2008, Shenzhou-7 was launched, and Zhai Zhigang became the first astronaut to conduct a spacewalk in China's history. In recent years, China's space industry has entered a fast track of innovation-driven development, space infrastructure has advanced steadily, and China's space station was fully completed in 2022. The rapid development of China's space industry has written a glorious chapter in the history of the Chinese nation and made a great contribution to the progress of human civilization. In the future, China will take steadier and further steps in its exploration of space.
