2025-06 第1套 作文范文

As requirements for job applications are getting increasingly higher, college students ought to be better prepared for their future career. In an era when employers demand not only a diploma but also practical competence, waiting until graduation to think about work is simply too late. There are concrete steps every student can take. To begin with, obtaining relevant certificates and mastering professional skills builds a solid foundation. Last summer, for instance, I taught myself data analysis and earned a certificate, which later helped me stand out in an internship interview. What is more, internships offer irreplaceable experience: by working in a real company, students learn how a workplace actually operates and discover which career truly suits them. Such preparation turns abstract knowledge into employable ability. In conclusion, the fiercer competition becomes, the more valuable early preparation is. Therefore, college students should seize every chance to enrich their skills and experience, so that when opportunity knocks, they are ready to open the door.

随着求职要求越来越高，大学生理应为未来的职业生涯做更充分的准备。在一个雇主不仅看重文凭、更看重实际能力的时代，等到毕业才去考虑工作的事，实在太晚了。 每个学生都能采取一些具体的行动。首先，考取相关证书、掌握专业技能，能打下坚实的基础。比如去年夏天，我自学了数据分析并考取了证书，这后来帮助我在一次实习面试中脱颖而出。此外，实习能提供无可替代的经验：在真实的公司里工作，学生才能了解职场究竟如何运转，并发现自己真正适合的职业。这样的准备，能把抽象的知识转化为可就业的能力。 总之，竞争越激烈，及早准备就越有价值。因此，大学生应抓住每一个机会去充实自己的技能与经验，这样当机会来敲门时，他们已经做好了开门的准备。

The Tiangong Space Station, China's first space laboratory, boasts over 110 cubic meters of usable space and is able to accommodate three astronauts, orbiting at an altitude of 400 to 450 kilometers above the Earth's surface. The station has carried out more than 180 scientific research and application projects, covering such fields as space life science, space medicine, and space materials science. The research achievements of the station have been widely applied in China and have generated remarkable economic benefits. For example, the direct economic benefits created by space breeding reach hundreds of billions of yuan. This not only marks China's tremendous progress in aerospace technology, but also demonstrates that China has made significant contributions to global space research and application.

2025-06 第2套 作文范文

As social media is used more and more extensively, there is a growing awareness of the importance of using it properly and responsibly. Platforms such as WeChat and Weibo have become part of daily life, yet the way we behave online shapes both our own reputation and the wider community. To use social media responsibly, we should verify information before sharing it and treat others with respect. This is because a single careless post can spread misinformation within minutes. A case in point is my own experience: last year I nearly forwarded a false rumour about a campus event, but a quick check revealed it was fake. Had I shared it, I would have misled hundreds of classmates. Therefore, using social media properly is not a trivial habit but a genuine responsibility. If each of us pauses to think before posting, the online world can become a place of trust rather than confusion. Only in this way can we truly enjoy the benefits that technology offers.

随着社交媒体的使用越来越广泛，人们越来越意识到恰当且负责任地使用它的重要性。像微信和微博这样的平台已经成为日常生活的一部分，然而我们在网上的言行既塑造着我们自己的声誉，也影响着更大的社区。 要负责任地使用社交媒体，我们应当在分享信息前先加以核实，并尊重他人。这是因为一条草率的帖子几分钟之内就能传播不实信息。我自己的经历便是一例：去年我差点转发了一条关于校园活动的虚假谣言，但快速核实后发现它是假的。如果我当时转发了，就会误导数百名同学。 因此，恰当地使用社交媒体不是一个无关紧要的习惯，而是一份实实在在的责任。如果我们每个人在发帖前都停下来想一想，网络世界就能成为一个充满信任而非混乱的地方。唯有如此，我们才能真正享受科技带来的益处。

2025-06 第3套 作文范文

With the increasing application of AI technology, there is a growing concern that it may negatively impact human creativity. In my view, this worry is well-grounded, for excessive reliance on AI can gradually dull our capacity to think and create independently. The reason is straightforward. Creativity is a muscle that strengthens only through active practice. When we ask AI to generate essays, ideas, or solutions at the click of a button, we skip the very struggle that sparks original thinking. Take my own experience as an example. Last semester, I turned to an AI tool whenever an assignment felt difficult. Although the drafts came quickly, I soon realized that my mind had grown lazy: I could no longer brainstorm freely, and my writing lost its personal voice. Therefore, the concern deserves our serious attention. AI should serve as a helpful assistant rather than a replacement for our own minds. Only by keeping our thinking active can we ensure that technology enriches, rather than erodes, human creativity.

随着人工智能技术应用的日益普及，人们越来越担忧它可能会对人类的创造力产生负面影响。在我看来，这种担忧不无道理，因为过度依赖人工智能会逐渐削弱我们独立思考和创造的能力。 原因很简单。创造力就像一块肌肉，只有通过主动练习才会变强。当我们一键让人工智能生成文章、点子或解决方案时，我们恰恰跳过了那段激发原创思维的艰难摸索。以我自己的经历为例。上学期，每当作业感到棘手，我就求助于一款人工智能工具。虽然草稿来得很快，但我很快意识到自己的头脑变懒了：我再也无法自由地进行头脑风暴，我的文字也失去了个人风格。 因此，这种担忧值得我们认真对待。人工智能应当充当有益的助手，而不是取代我们自己的头脑。唯有保持思考的活跃，我们才能确保技术滋养而非侵蚀人类的创造力。

2025-06 第3套 翻译参考译文

Since ancient times, China's water resources have been unevenly distributed, with water scarce in the north but abundant in the south. To effectively address the severe water shortage in the north, the Chinese government launched the South-to-North Water Diversion Project. It is a massive cross-regional water conservancy project for allocating water resources. After decades of planning and preparation, the project began construction in 2002. Divided into eastern, central and western routes with a total length of 4,350 kilometers, it is expected to benefit more than 400 million people. Since the water supply began in 2014, the project has diverted over 50 billion cubic meters of water to the north, providing reliable water resources for people in the region, while greatly improving the local ecological environment and promoting sustainable and healthy economic development.

自古以来,中国的水资源北缺南丰,分布极不均衡。为了有效解决北方严重缺水问题,中国政府实施了南水北调工程(the South-to-North Water Diversion Project)。这是一项跨区域配置水资源的宏大水利工程。历经数十年的规划与筹备,工程于2002年开工建设,分为东、中、西三条线路,总长4350公里,惠及人口将超过4亿。自2014年通水以来,工程向北方调水累计已超500亿立方米,为北方地区的人民提供了可靠的水资源,同时也极大地改善了这一地区的生态环境,促进了经济的可持续健康发展。

2025-12 第1套 作文范文

Living in an increasingly competitive world, college students should better prepare themselves to confront various challenges. This preparation is no longer optional but essential, for those who wait passively will inevitably be left behind. To begin with, students ought to equip themselves with solid knowledge and practical skills rather than merely chasing high marks. For instance, in today's fierce job market, employers value candidates who can communicate, cooperate and solve real problems. What is more, developing a resilient mindset matters just as much. I still remember failing my first internship interview; instead of giving up, I reflected on my weaknesses, practised repeatedly, and finally secured a position the next semester. That experience taught me that challenges are conquered by those who keep improving. Therefore, it is high time that college students stopped drifting and started planning ahead. By strengthening both our abilities and our willpower, we can turn the pressure of competition into a driving force and stride confidently into the future.

生活在一个竞争日益激烈的世界里，大学生应当更好地武装自己，去迎接各种挑战。这种准备不再是可有可无，而是不可或缺的，因为那些被动等待的人终将被甩在后面。首先，学生应当用扎实的知识和实用的技能武装自己，而不是一味追求高分。例如，在当今竞争激烈的就业市场，用人单位看重的是能够沟通、协作并解决实际问题的求职者。此外，培养一种坚韧的心态同样重要。我至今记得第一次实习面试失利；我没有放弃，而是反思自己的不足，反复练习，终于在下个学期争取到了一个职位。那段经历让我明白：挑战属于那些不断进步的人。 因此，大学生该停止随波逐流、开始提前规划了。通过同时强化我们的能力与意志，我们就能把竞争的压力转化为前进的动力，自信地大步迈向未来。

2025-12 第2套 作文范文

While striving for the Chinese Dream, young people enjoy more opportunities to realize their self-worth. As the nation advances, doors that were once closed are swinging open for the younger generation. Specifically, the rapid growth of technology, education and entrepreneurship offers a broad stage on which youth can turn their talents into real contributions. These opportunities become meaningful only when young people seize them actively. Take my cousin as an example: instead of chasing a comfortable office job, she founded a start-up that brings online courses to rural children. For instance, thousands of students now learn from teachers they could never have met, and she has found genuine value in her work. In this way, personal ambition and national progress reinforce each other. In a word, the Chinese Dream is not a distant slogan but a living platform that lets every young person shine. As long as we combine individual effort with the tide of the times, we can both realize our self-worth and push the country forward.

在为中国梦奋斗的同时，年轻人享有更多实现自我价值的机会。随着国家的发展，曾经紧闭的大门正向年青一代敞开。具体来说，科技、教育与创业的迅速成长，提供了一个广阔的舞台，让青年得以把才华转化为切实的贡献。 这些机会只有在青年主动抓住时才有意义。以我的表姐为例：她没有去追求一份安稳的办公室工作，而是创办了一家为乡村孩子送去网络课程的初创企业。举例来说，如今成千上万的学生得以师从他们本来永远无法遇见的老师，而她也在工作中找到了真正的价值。就这样，个人抱负与国家进步彼此成就。 总而言之，中国梦不是一句遥远的口号，而是一个让每个年轻人都能发光的鲜活舞台。只要我们把个人的努力汇入时代的潮流，就既能实现自我价值，又能推动国家前行。

2025-12 第3套 作文范文

It is believed that teachers can exert a profound influence on their students' academic pursuit and personal development. Having spent years in classrooms, I firmly agree that a dedicated teacher shapes not only what we learn but also who we become. On the one hand, teachers guide our academic growth. My high-school chemistry teacher, Mr. Li, turned a subject I once dreaded into my favourite one. By designing vivid experiments and patiently answering my endless questions, he inspired me to pursue science and eventually major in it at university. On the other hand, teachers mould our character. Through his fairness and honesty, Mr. Li taught me to value integrity over easy shortcuts, a lesson that still steers my decisions today. In conclusion, a good teacher enlightens the mind and cultivates the heart at the same time. Their influence, though quiet and gradual, reaches far beyond examinations and often lasts a whole lifetime.

人们普遍认为，教师能对学生的学业追求和人格发展产生深远的影响。在课堂里度过多年之后，我坚定地赞同这一点：一位敬业的老师塑造的，不仅是我们学到了什么，更是我们成为了什么样的人。 一方面，教师引领我们的学业成长。我高中的化学老师李老师，把一门我曾经害怕的学科变成了我的最爱。他设计生动的实验，耐心回答我层出不穷的问题，激励我去追求科学，最终让我在大学里选择了它作为专业。另一方面，教师塑造我们的品格。凭借他的公正与诚实，李老师教会我看重正直、不走投机取巧的捷径--这个道理至今仍在指引我的抉择。 总之，一位好老师同时启迪头脑、滋养心灵。他们的影响虽然安静而渐进，却远远超越考试，往往伴随人的一生。

2025-12 第3套 翻译参考译文

Frugality is a traditional virtue of the Chinese nation. In ancient China, productivity was low, and our ancestors knew well that the fruits of labor did not come easily, so they upheld the idea of frugality. Today, when material wealth is abundant, the Chinese people still maintain a frugal lifestyle, reflecting their concept of rational consumption and their respect for labor. In recent years, the Chinese government has been strengthening the building of a resource-conserving society by advocating the "Clear Your Plate" campaign to reduce food waste, promoting a simple and low-carbon lifestyle, advancing the recycling of resources, and opposing excessive consumption. This building of a resource-conserving society has strongly promoted the high-quality development of China's economy.

节俭（frugality）是中华民族的传统美德。在中国古代,生产力低下,先人们深知劳动成果来之不易,因而秉持节俭的理念。到了物质极大丰富的今天,中国人民依然坚持节俭的生活方式,体现了理性消费的生活理念和对劳动的尊重。近年来,中国政府持续加强节约型社会的建设,倡导"光盘行动",减少食物浪费,提倡简约低碳的生活方式,推进资源循环利用,反对过度消费。节约型社会的建设有力地推动了中国经济的高质量发展。
