2026-06 第1套 作文范文

With the trend of Urbanization, it is vitally important for city residents to develop a stronger love for Nature. As concrete forests expand, many urban dwellers rarely feel the breeze, hear birds, or touch soil. A stronger bond with nature is not a luxury; it is essential for mental and physical well-being in an increasingly artificial environment. One practical way to cultivate this love is to make nature part of daily routines. For example, residents can walk in nearby parks, grow plants on balconies, or join community gardening projects. These activities reconnect people with the living world. Last year, I started visiting a small riverbank park every weekend. Watching seasons change there reduced my stress and made me more aware of environmental protection. Therefore, city governments and individuals should work together to create more green spaces and spend time in them. Only by integrating nature into urban life can residents truly develop a stronger love for it and build healthier cities for future generations.

随着城市化的趋势，城市居民培养对自然更深厚的热爱至关重要。随着混凝土森林的扩张，许多城市居民很少感受到微风、听到鸟鸣或触摸土壤。在日益人造化的环境中，对自然的更紧密联系不是奢侈品，而是身心健康的必需品。 培养这种热爱的一个实用方法是让自然成为日常生活的一部分。例如，居民可以在附近公园散步、在阳台种植植物或参加社区园艺项目。这些活动使人们重新与有生命的世界连接。去年，我开始每个周末去一个小河岸公园。在那里观察季节变化减轻了我的压力，也使我更关注环境保护。因此，城市政府和个人应共同努力创造更多绿色空间，并花时间置身其中。只有将自然融入城市生活，居民才能真正培养更深厚的热爱，并为后代建设更健康的城市。

2026-06 第1套 翻译参考译文

Advances in science and technology have brought about the rapid development of China's medical services. In recent years, telemedicine has made high-quality medical resources accessible to more patients. Through video links, medical experts can provide consultations for patients in remote areas, guiding local doctors in developing and implementing treatment plans. AI-assisted diagnosis systems help doctors identify patients' early symptoms, thereby improving the accuracy of diagnosis. The widespread adoption of electronic health records enables doctors to quickly review patients' medical histories, thus avoiding repeated examinations. Online medical consultation platforms have also greatly facilitated patients' access to medical care. Overall, the deep integration of technology and healthcare has better met people's health needs.

科技进步使中国的医疗事业得到快速发展。近年来,远程医疗使优质医疗资源惠及更多患者。医学专家可以通过视频为偏远地区患者提供咨询,指导当地医生制定并实施治疗方案。人工智能辅助诊 断系统帮助医生识别患者的早期症状,提高诊断准确率。电子健康档案的普及让医生能够快速了解患 者病史,避免重复检查。线上医疗咨询平台极大地方便了患者就诊。科技与医疗的深度融合更好地满足了人民的健康需求。

2026-06 第2套 作文范文

In an era of rapid social development, it is vitally important to enhance young people's sense of responsibility. As society changes at an unprecedented pace, young people often face distractions and pressures that weaken their commitment to family, community, and the future. Without a strong sense of responsibility, they may become self-centered and short-sighted. The decline of responsibility among youth is partly caused by the instant gratification culture brought by technology and social media. Many young people are used to receiving immediate rewards and may avoid duties that require long-term effort. To address this problem, schools and families should work together to cultivate accountability through real tasks and role models. For example, involving students in community service can help them understand the value of contributing to society. In conclusion, enhancing young people's sense of responsibility is not only a personal virtue but also a social necessity. Only when the younger generation takes responsibility seriously can society achieve sustainable development and harmony.

在社会快速发展的时代，提升年轻人的责任感至关重要。随着社会以前所未有的速度变化，年轻人常常面临分散注意力和压力，这些因素削弱了他们对家庭、社区和未来的承诺。如果没有强烈的责任感，他们可能会变得以自我为中心、目光短浅。 年轻人责任感的下降，部分是由科技和社交媒体带来的即时满足文化造成的。许多年轻人习惯于获得即时回报，可能会回避需要长期付出的职责。为解决这一问题，学校和家庭应共同努力，通过真实任务和榜样示范来培养责任意识。例如，让学生参与社区服务，可以帮助他们理解为社会做贡献的价值。 总之，提升年轻人的责任感不仅是个人美德，也是社会必需。只有当年轻一代认真对待责任时，社会才能实现可持续发展与和谐。

2026-06 第2套 翻译参考译文

The booming development of e-commerce is profoundly changing the face of rural China. As the Internet and logistics networks rapidly extend into rural areas, more and more rural residents are selling their agricultural products directly to urban consumers through e-commerce platforms. In recent years, live-streaming commerce, which enables urban consumers to interact with sellers in real time, has become a new way to promote rural development. E-commerce has broken down the information barriers between urban and rural areas and expanded sales channels for agricultural products, helping rural residents increase their incomes and achieve prosperity. The deep integration of the digital economy with rural revitalization is injecting unprecedented vitality into China's rural development.

电子商务的蓬勃发展正在深刻改变中国农村的面貌。随着互联网和物流网络快速向农村延伸，越来越多的农村居民通过电子商务平台将农产品直接销售给城市消费者。近年来，直播带货（live- streaming commerce）使城市消费者能够与卖家实时互动，已成为促进农村发展的一种新方式。电子商务打破了城乡之间的信息壁垒，拓宽了农产品销售渠道，帮助农村居民增收致富。数字经济与乡村振兴的深度融合，正在为中国农村发展注入前所未有的活力。

2026-06 第3套 作文范文

Faced with growing globalization,students realize that a deep understanding of traditional Chinese culture helps cultivate cultural confidence. In an age when Western brands, movies and festivals flood daily life, many young people begin to look back at their own roots. They find that cultural confidence cannot be borrowed from outside; it must grow from real knowledge of what their ancestors created. The reason is not hard to understand. Globalization exposes us to different values, yet it also makes us question who we are. Only by learning the ideas behind Confucianism, the beauty of calligraphy, or the spirit of traditional festivals can we answer that question with pride. Take the Spring Festival as an example: those who understand its meaning of reunion and renewal celebrate it not out of habit, but out of identity. Therefore, college students should actively read classics, visit museums and practice folk arts. The deeper we understand traditional Chinese culture, the more confident we become in facing the world.

面对日益增长的全球化，学生们意识到深入理解中国传统文化有助于培养文化自信。在这个西方品牌、电影和节日充斥着日常生活的时代，许多年轻人开始回望自己的文化根脉。他们发现文化自信无法从外界借来，而必须建立在对先辈所创造文化的真正了解之上。 其原因不难理解。全球化让我们接触到不同的价值观，但也让我们反思自己是谁。只有了解儒家思想背后的理念、书法之美或传统节日的精神，我们才能自豪地回答这个问题。以春节为例：真正理解其团圆与更新内涵的人，庆祝春节不是出于习惯，而是出于身份认同。 因此，大学生应积极阅读经典、参观博物馆并参与民俗艺术实践。我们对中国传统文化理解得越深入，在面对世界时就越自信。

2026-06 第3套 翻译参考译文

In recent years, China's drone industry has been booming, with its export volume ranking first in the world. Chinese drones are popular with consumers around the world for their excellent stability, high-definition shooting capability and convenient operation, and have been widely used in civilian fields. Drones have been included by the state in strategic emerging industries, and are gradually becoming intelligent assistants that can meet the needs of various scenarios. In rural areas, drones can accurately identify crop diseases and pests, and efficiently spray pesticides. In cities, drones can quickly deliver fresh food. In the near future, drones will be able to realize their unique value in more fields, injecting new momentum into economic and social development.

近年来,中国无人机(drone) 产业蓬勃发展,出口量跃升为全球第一。中国的无人机以出色的稳 定性、高清 (high-definition)拍摄能力和便捷的操作,受到全球消费者的喜爱,在民用领域得到广泛应用。无人机已被国家纳入战略性新兴产业,逐步成为能满足多种场景需求的智能助手。在农村,无人机可精准识别农作物病虫害,高效喷洒农药。在城市,无人机可快速运送生鲜食品。在不久的将来, 无人机能够在更多领域实现其独特价值,为经济社会发展注入新动能。
